

cloudCheck mobile

LIBRARY SELF-SERVICE IN THE PALM OF YOUR HAND

Increase users choice and library efficiency with cloudCheck mobile, an intuitive app that allows library users to borrow physical materials and manage accounts using their own device.

From streamlined checkouts to seamless holds and renewals, cloudCheck mobile revolutionises the library experience for digital natives and traditional users alike. Add cloudCheck mobile and allow visitors to choose the checkout experience that meets their needs: selfCheck kiosk, or their own smartphone.
